RACKMOUNT SERVER APPLIANCES

## Chromaticity Introduces the CP 3200 and CP 3400 line of Rackmount server appliances for EFI Colorproof and Fiery XF ink jet Rips.

Now you and your customers can begin to deploy a true client/server product in the same manner that I.T. professionals have been for years.

It's time to get those desktop workstations off the floor. It's time to clean up the rats nest of cables that snake across the shop. It's time to simplify the deployment of color management technologies. Put the monitor on the desktop and keep the server in the nice, cool closet.

EFI Colorproof XF and Fiery XF are unique products in many ways. Not only are they the fastest and easiest Rips to use in this cluttered "alphabet soup" world of Rip software, but they are also now the easiest to install, service and support. Chromaticity now brings to market two products on pre-integrated, state of the art servers that yield the following benefits:

- Preinstalled XF software lets you focus on the training of the application instead of on the installation and configuration.
- Chromaticity keeps mirrored DVD back up
- 3 year "next day" warranty comes standard
- Hardware comes in 2 versions depending on productivity needs
- CP 3400 is available with 4 processors and can Rip 4 files at the same time thanks to EFI's new Quad CPSI Technology
- Hardware fits into a standard 1 or 2m rack and is only 1.75" (1u) tall. (Of course, if you do not have a rack, then the hardware can go anywhere.)
- Very competitive pricing
- Just add a monitor to every client seat or add an XF client to every existing monitor. As Chromaticity is now an Eizo Preferred Master Distributor, we have this covered.
- Eliminate cable, floor and desktop clutter.
- Install XF and CP 3X00 in same rack as your routers and email servers.

### CP3200 - \$2295 MSRP

Intel Pentium Dual Core 1.6 GHz with 800 FSB  
2 GB RAM  
160 GB HD  
Windows XP PRO

### CP3400 - \$3595 MSRP

Intel XEON Quad Core 2.13 GHz with 1066 FSB  
4 GB RAM  
160 GB HD  
Windows XP PRO

## RACKMOUNT SERVER APPLIANCES

The CP3200 and 3400 have the same chassis,

Height-	1.7" (43mm)
Width-	16.8" (426mm)
Depth-	14.0" (356mm)
Gross Weight-	14 lbs (6.4kg)
Available Colors-	Beige, Black

### CP3200

260W Power Supply

2x 3.5" Internal Drive Bay

1x 100mm 5,000 RPM Fan

1x I/O Expansion Slots

2x Rear USB Ports (2.0 ready)

Power Switch & 5 LED Indicators

Supermicro PDSMI+ Motherboard

Intel® Xeon® 3200 Series,  
Xeon® 3000 Series, Core™ 2 Extreme,  
Core™ 2 Quad, Core™ 2 Duo,  
Pentium® D, Pentium Extreme Edition,  
Pentium 4 & Celeron D in LGA775  
Package (FSB 1066/800/533)

Intel® 3000 (Mukilteo-2) Chipset

.Up to 8GB unbuffered ECC / non-ECC  
DDR2 667/533MHz SDRAM

1x Intel® 82573L PCI-e Gigabit LAN  
1x Intel® 82573V PCI-e Gigabit LAN \. Built-in SATA Controller  
4x SATA (3 Gbps) Drive with  
RAID 0, 1, 5, 10 Support

1 (x8) PCI-Express or  
1x 64-bit 133MHz PCI-X,  
1x 32-bit 33MHz PCI

On board ATI ES1000 Graphics

IPMI 2.0 Support (AOC-IPMI20-E)

E2160 DC 1.8 GHz/800 FSB

Core 2 Duo E2160 1.8/800 BOX

2X 1GB PC 5300

160 GB HD

Seagate 160G Barracuda 7200.10

Seagate 160GB IDE ST3160815A

Xp PRO-SP 2C

### CP3400

Chassis and Motherboard are the same as above

XEON 3210 QC 2.13 GHz/1066 FSB

Intel Xeon X3210 Kentsfield 2.13GHz 2 x 4MB L2 Cache LGA 775  
Quad-Core Processor

4X 1GB PC 5300

160 GB HD

Same as above

XP PRO

Same as above
