

# Validation™

PREMIUM PROOFING MEDIA

## Validation™ 155 Offset

Validation™ 155 Offset Premium Proofing Media is a competitively priced, 155 gram premium satin proofing media for use with both pigmented and dye-based inksets. This media offers the look and feel of an actual offset press stock while demonstrating sufficient gamut to accurately proof commercial, publication and packaging print. The natural make-up of the media makes it ideal for mock-up work and will not crack when folded, while the paper base of the stock ensures opacity preventing show-through.

*Sample rolls are available upon request.*
