PREMIUM PROOFING MEDIA

Validation™ SG3 Commercial Proofing

Validation SG3 Commercial Premium Proofing Media is a competitively priced, 165 gram premium proofing media for use with both pigmented and dye-based inksets. This media was specially designed to meet the whitepoint and performance requirement of the Idealliance® SWOP® grade 3 specification for off press proofing. Validation SG3 offers the look and feel of an actual offset press stock while demonstrating sufficient gamut to accurately proof commercial, publication and packaging print. The natural make-up of the media makes it ideal for mock-up work and will not crack when folded, while the paper base of the stock ensures opacity preventing show-through.

Sample rolls are available upon request.
